# THE MARKETS.

An unsettled and weak feeling has prevailed in the grain markets the past week, and lower prices were the rule. The offerings for future delivery were liberal, the foreign and home markets were weak and prices lower, and the arrivals were large, all of which circumstances gave a discouraging outlook to holders. Wheat closed lower at 98 cts; corn closed steady and active @ 45 cts for October.

Hog products have been in fair demand and the offerings were free. The markets as a whole ruled weak throughout the week, and closed lower @ \$11.87.

Cattle were in good supply and fair demand, but the market was not very strong, and prices rather favored buyers: hogs were fairly active, but prices ruled lower and dull. Hogs, packing, \$4.65 @ 5.00; cattle, choice shipping \$4.95 @ 5.85.

# COUNTY COURT.

An adjourned term of the August term of the County Court was held on Monday last, all judges being present. Jacob Ford and others petitioned the court asking for an appropriation of one hundred and twenty-five dollars for the purpose of building a bridge on the road leading from Forest City in a southeasterly direction. After due consideration the petition was refused.

John M. Canon was awarded contract for building bridges at \$7.95 per foot.

George W. Cotton was awarded the contract for furnishing wood at \$2.95 per cord.

—If horses, cattle and sheep could have salt for them to lick or nibble at all times as they desired, while in stable, yard, or pasture, they would escape various diseases and be more thrifty and useful than when deprived of it, or even given irregularly. It the well known old stand formerly occupied by W. G. Tirrell—the "Inter Ocean" store house—a new business house has just been opened by Col. H. Ettenson, who will make his place known as "The One-Price Star Clothing House." A News reporter inspected the stock this morning. Without hesitation it may be pronounced the largest, and best assorted, of the latest patterns and finest clothes to be found anywhere in St. Joseph or Northwest Missouri. Col. Ettenson is an experienced clothier and he proposes to let the public reap the advantages of his business knowledge. He buys for cash and will sell for cash, strictly at one price and without deviation; all goods are marked in plain figures and a child can buy without danger of being overcharged or misled. The News welcomes Col. Ettenson to St. Joseph and wishes his "Star Clothing House" all success. It is a big institution and proposes to lead all competition.—St. Joseph Evening News

# HOW TO FORECAST WEATHER.

The Farmers Club of the American Institute has issued the following rules for foretelling the weather:

1. When the temperature falls suddenly there is a storm forming south of you.

2. When the temperature rises suddenly there is a storm forming north of you.

3. The wind always blows from a region of fair weather toward a region where a storm is forming.

4. Cirrus clouds always move from a region where a storm is in progress to a region of fair weather.

5. Cumulus clouds always move from a region of fair weather to a region where a storm is forming.

6. When cirrus clouds are moving rapidly from the north or northeast there will be rain inside of twenty-four hours, no matter how cold it is.

7. When cirrus clouds are moving rapidly from the south or southeast, there will be a cold rainstorm on the morrow, if it is in summer, and if it be in winter there will be a snowstorm.

8. The wind always blows in a circle around a storm, and when it blows from the north, the heaviest rain is east of you; if it blows from the south the heaviest rain is west of you; if it blows from the east, the heaviest rain is south, if it blows from the west, the heaviest rain is north of you.

9. The wind always blows unless rain or snow is falling within one thousand miles of you.

10. Whenever heavy white frost occurs, a storm is forming within one thousand miles north or northeast of you.
